PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1D

Spassk-Dalniy Ammunition Depot Voskresenka is located 17 kilometers (km) southwest of Spassk-Dalniy (Figure 1).

The depot covers approximately 1,090 acres and contains 2 administration buildings, 3 administration/support buildings, 6- probable barracks, 3 possible barracks, 8 quarters-type housing units, 2 storage buildings, 1 vehicle shed, 2 transshipment buildings, 9 revetted explosives storage buildings, 44 explosives storage buildings, 78 storage sheds (probably for explosives storage), and 50 support buildings. The depot also contains 2 athletic fields and 1 motor pool area (Figures 2 and 3).

The depot has been covered by TALENT and KEYHOLE missions of interpretable

that storage Areas B and C (see sketch) were constructed prior to Storage Area A, with the exception of the 2 explosives storage buildings which were constructed by was also constructed prior to Storage Area D was constructed prior to with the exception of 1 revetted explosives storage building and 4 explosives storage buildings which were con-

DESCRIPTION OF INSTALLATION

Railroad Service

Areas A and D are served by rail spurs from the Far Eastern Railroad.

Road Service

Secondary, probably all-weather roads inter-connect the areas in the depot. A primary highway connects the depot with Spassk-Dalniy.

Administration and Troop Housing Areas

Area D1 contains 3 administration/support buildings, 3 possible barracks, 1 storage building, and 20 support buildings. The storage building and 2 of the administration/support buildings were constructed prior to

The rest of the buildings were constructed by This area supports storage areas A, B, and C.

Area D2 contains 2 administration buildings, 6 probable barracks, 8 quarters-type housing

units, 1 storage building, one 40- by 120-foot vehicle shed, one 155- by 380-foot motor pool area, and 13 support buildings. One administration building, 6 quarters-type housing units and the vehicle shed were constructed prior to _______ The rest of the buildings were constructed by _______ This area gupports storage area D.
